

How can I set up my webcam in Zoom (Content from 2nd Camera)

Make sure Zoom is installed before you begin.

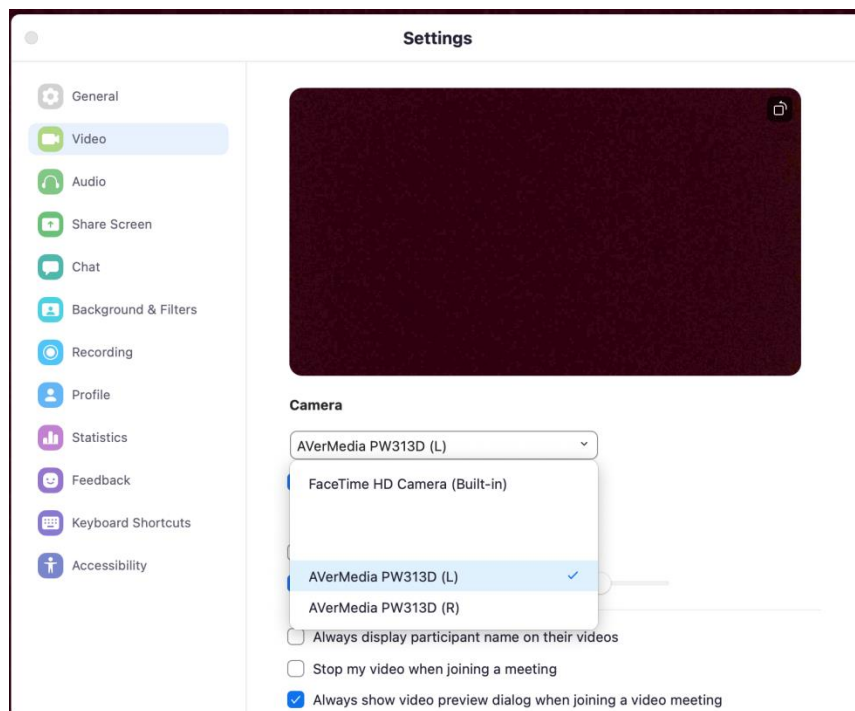

STEP 1. Plug your AVerMedia webcam into your computer via USB. If you are using the PW313D remember to turn on the camera you plan on using.

STEP 2. Log in to Zoom.

STEP 3. Click Settings, located at the top right under your profile picture:

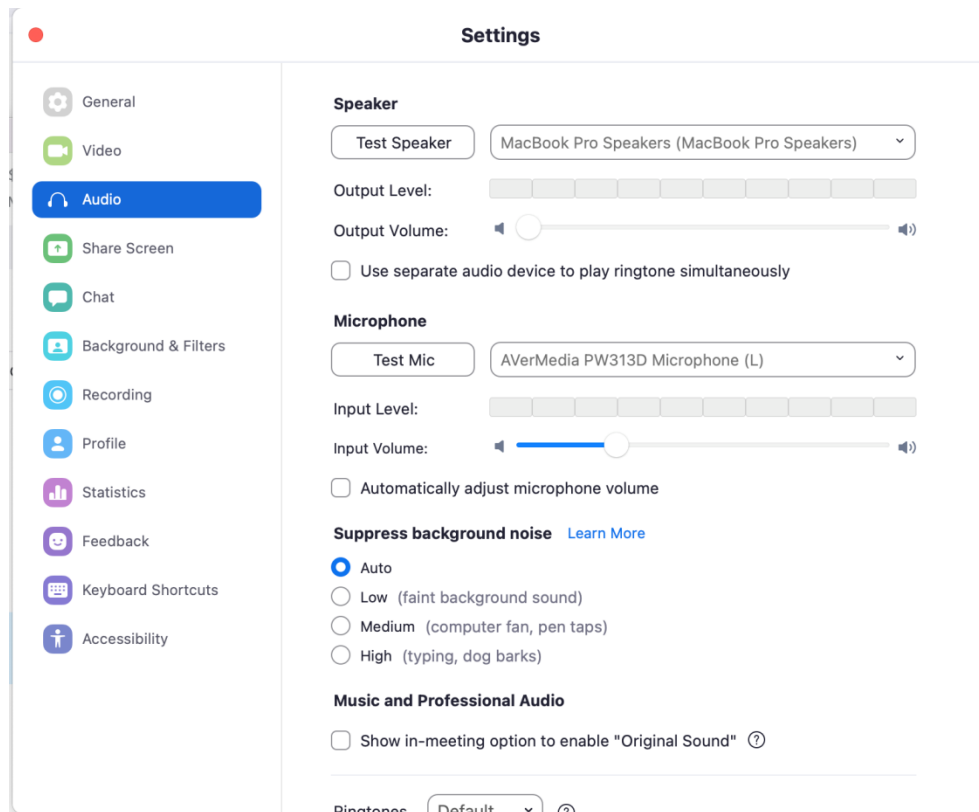

Click the Video tab. Next, in the Camera drop-down menu, select the camera PW313D (L) .

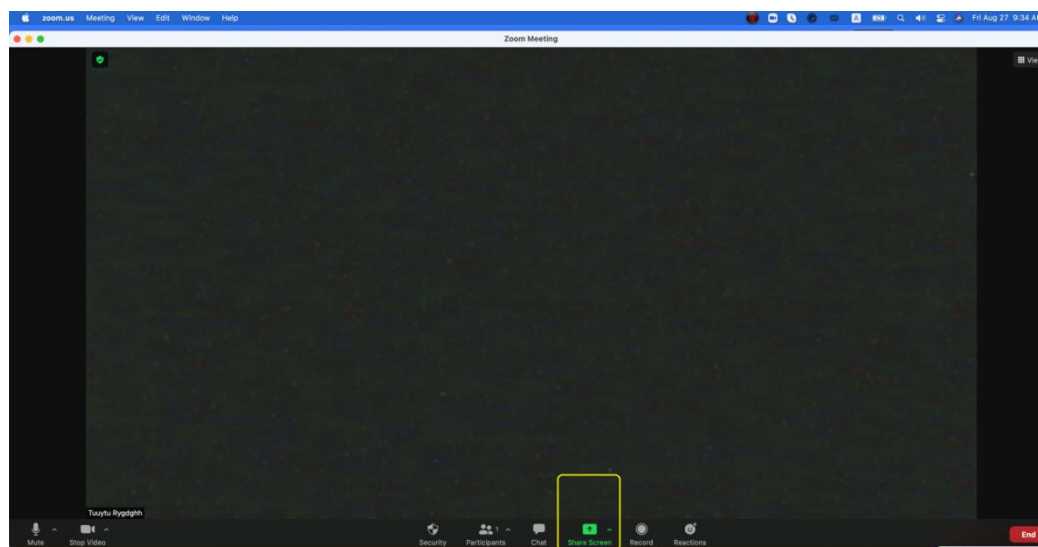

Once you have selected your webcam you should be able to see its video feed in the preview window. Remember to check that your privacy shutter is open, otherwise the preview image will be blank.

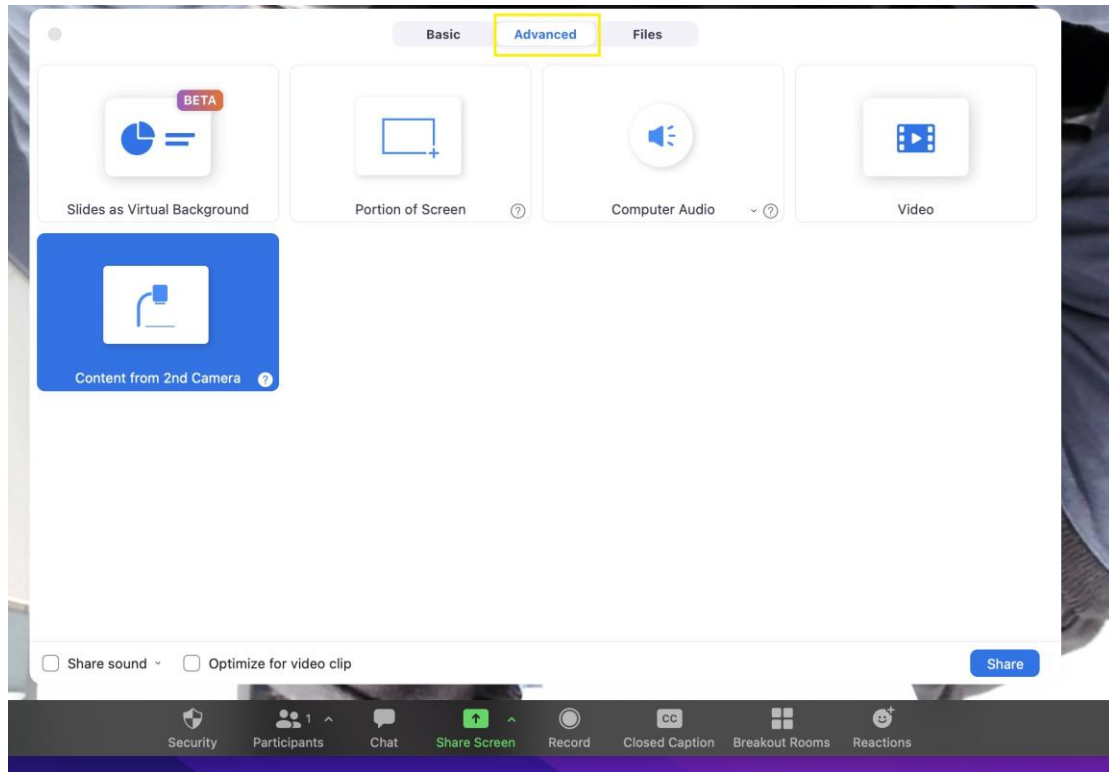

STEP 4. You can use your AVerMedia webcam's built-in microphone as the audio source for video meetings. To do this, click the Audio tab in Zoom's settings. Next, select your camera as the audio source from the Microphone drop-down menu.

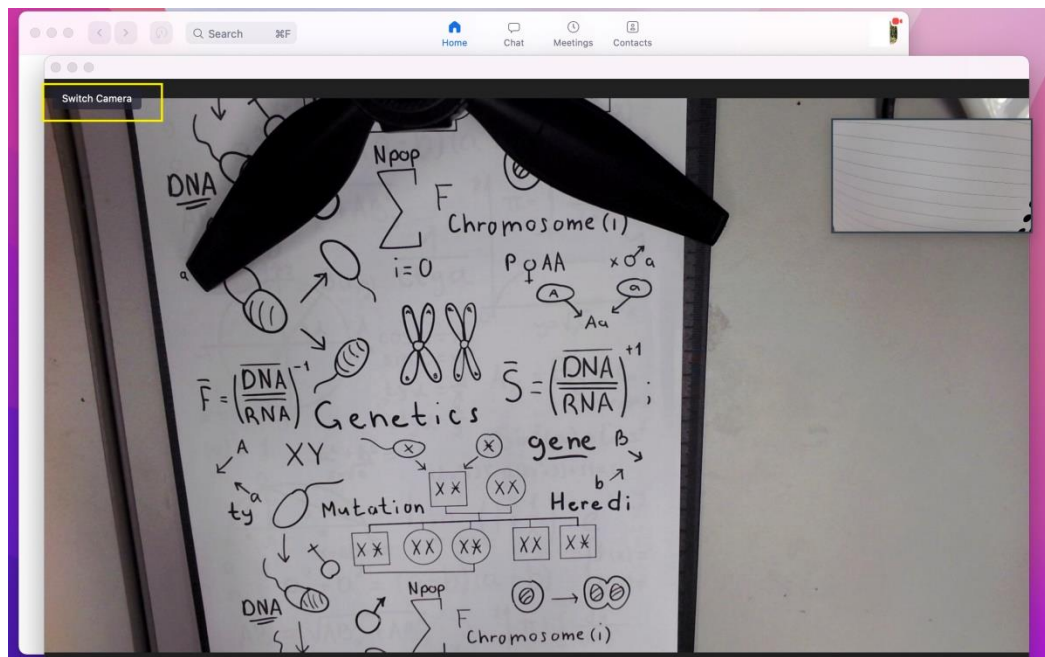

STEP 5. Please select Share Screen, located at the bottom of your meeting window.

STEP 6. A pop-up window will appear with several options. Select Advanced tab on the top of the window, then select Content from 2ND Camera, then click Share located at the bottom of the meeting window.

Next, you can click on “Switch Camera” to enable PW313 (R) as your 2nd Camera

STEP 7. Now you can easily share materials in a meeting!
